CRYPTO CURRENCIES

Crypto currencies is a type of currency which uses digital files as money.

Cryptocurrencies work using a technology called blockchain. Blockchain is a decentralized technology spread across many computers that manages and records transactions. Part of the appeal of this technology is its security.

Our integration allows customers to pay with Coinbase wallet or select a specific cryptocurrency, such as:

- Bitcoin
- Ethereum
- USD coin
- Litecoin
- Dai
- Bitcoin cash

TRANSACTION DETAILS

End-customer will purchase with coinbase e-wallet but we will collect in the currency of the basket. Merchant will be collecting and pay out in the currency of the basket.

In the example: we redirect customer to coinbase with CHF5.00 price and coinbase collects bitcoins (for example). in Payyo transaction costs CHF5.00.

Note: Refunds are manual, so merchants/integrators will need to contact Payyo in order to issue a refund for a specific transaction.
